## Experience

### **UX/UI Designer | The Equestrian**

Sammamish, WA | 2018 - Current (3 years)

Directed the vision of the application into a suite of industry leading products. Used UX research to create visual and interface designs that were intuitive for the core demographic. Used Figma and Adobe XD to create concepts based around Human Centered Design principles and theory to make better experiences for the client. Developed a cohesive brand language that was expandable for new additions to the platform. Assisted with localization as the service reached global audiences. Created payments models and visuals to represent such. Built motion design standards for the brand.

### **UX and Web Designer | Web Team - Seattle Pacific University**

Seattle, WA | 2019 - Current (2 years)

Built new web experiences for the university and assisted front-end design and development. Verified design decisions using research-backed by tests and surveys performed on prospective and current students. Used Figma to build concepts and prototypes of web and portal pages. Designed experiences using Human Centered Design Theory for new and current students. Tracked and executed design projects from multiple departments. Collaborated with web engineers to redesign several areas of the university's online presence to follow a more streamlined user experience.

### **UX and Web Intern | RMB Vivid Design Studio**

Seattle, WA | 2018 - 2019 (1 year)

Designed original experiences and branding for numerous major Seattle companies and firms. Used design thinking to brainstorm new design solutions for both physical and digital experiences. Worked with signage and way-finding identity. Worked extensively with inclusive design principles to bring well designed experiences to underrepresented groups in the Seattle area. Created signage and online experiences for First Nation foundations in the Washington/Oregon region.

### **Board Leader | AIGA SPU Design Chapter**

Seattle, WA | 2019 - 2020 (1 year)

Lead student agile scrums to build a remote tutoring application in a single day design sprint. Reached out to industry leaders in design to inspire the current students. Managed the organization's resources.

### **Intern | Tibco Software**

Redmond, WA | 2015 - 2016 (1 year)

Worked with graphic designers and product managers to build new experiences and visuals for the Tibco Spotfire BI product.

### **Intern | Extended Results Business Intelligence**

Redmond, WA | 2013 - 2015 (2 years)

Worked with graphic design, data entry, and managed IT tickets. Worked the front desk when needed.

### **Graphic Designer | Design and Printing - Sammamish Mail Post**

Sammamish, WA | 2017 - 2018 (1 year)
